

DITCH YOUR ANALOG PHONES

Your Next-Gen Voice Solution

Our Cloud PBX solution offers the advanced voice service you need in today's digital world. Take the expense and frustration out of equipment maintenance, upgrades and service changes and get the efficiency, flexibility and value your business deserves.

Seamless Communication

Work from anywhere with features like simultaneous ring, call forwarding and digital fax. Meet-Me conferencing and 3-way calling make it easy to collaborate remotely and get things done. Download the mobile app onto any of your mobile devices to stay connected from anywhere.

Control & Flexibility

With automated attendant and other features, you can easily control how calls are handled to make the most of every contact. Office-to-office extension dialing provides simple (and free!) calling between your locations. New features, upgrades, moves and changes are handled effortlessly, without interrupting your service.

Business Continuity

Our Call Forward Unreachable feature automatically redirects calls to another phone or location in the event that calls cannot be completed at your physical site. Receive important calls no matter what.

Cost Savings

Keep up with telephony advances without a large capital investment in easily outdated systems, equipment or technologies. It's simple to save up front and every step of the way.

Get to Know TelNet Worldwide

Too many businesses struggle with communication technology that's ineffective and frustrating. **We're changing that.** Our empowering, cloud-based solutions simplify the way you communicate and collaborate.
