

FAXBRIDGE ADAPTER INSTALLATION GUIDE

The FaxBridge Adapter empowers your traditional fax machine with the features of TelNet Digital Fax.

Installation Steps

1. Plug the power cord into the **PWR** port and connect it to your power outlet.
NOTE: A power cable is not required if your network environment supports POE (Power Over Ethernet)
2. Connect the unit to the local network switch by inserting a standard Ethernet cable in the **WAN** port on the unit.
3. Connect your fax machine into the **TEL** port using a standard phone cable.

Network Settings

You may need to consult your network administrator to verify that the **WAN** connection has the following settings:

- Ability to pick up a DHCP IP address.
- DNS server for the DHCP address must be able to resolve public DNS names.

Lights on the FaxBridge

PWR - Green light indicates that the unit has power

SYS - Green light indicates that the unit has an IP address

WAN - Indicates there is general network activity — green light will flash periodically

TEL - Indicates the unit is Online with the server

Troubleshooting

- If the **PWR** light is not on, check the power cable connection to the unit and to the outlet and check that the outlet works.
- If the **SYS** or **WAN** lights are not on, disconnect and reconnect the cables. If that does not resolve, disconnect and reconnect the power cable (or power cycle if you are using POE).
- If the problem persists, you are not receiving notifications, or are having any other issues, please call TelNet Customer Care at **(800) 508-1254**.

Sending a Fax from your Fax Machine

1. Put your document in the fax machine.
2. Dial the 11-digit, fully-qualified fax number (1 + area code + fax number).
3. Hit the SEND button.
4. Look for the notification email for success or failure message.

How to use your Digital Fax Services

Easy step-by-step instructions for using your Digital Fax Service, including how to log in to the digital fax web portal to view and manage faxes, are available online anytime. Go to telnetww.com/resources to download our flyers and reference guides.
