

Digital Fax

Cloud-Based and
HIPAA-Compliant

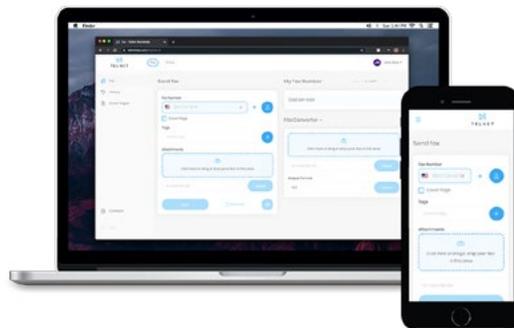

Don't settle for clunky fax machines and outdated file sharing processes. Our HIPAA-compliant digital fax solution is the easiest and most advanced way to securely share documents across any internet-connected device.

Security

Send faxes without worrying about third-party interceptions. All documents are encrypted during transmission, ensuring no sensitive information can be accessed by unauthorized parties. Our HIPAA-compliant solution enables you to send faxes with confidence.

Mobility

If you have access to a browser, you have access to your faxes. With our web-based portal, you can view faxes, search through faxing history and manage your settings from any device. And with our fax-to-email capability, you can receive faxes directly to your inbox.

Value

Forget paying for endless amounts of ink and toner. Digital faxing cuts the expense of old-fashioned faxing. Plus, you can say goodbye to maintenance costs if you decide to get rid of your fax machine altogether.

Get to Know TelNet Worldwide

Too many businesses struggle with communication technology that's ineffective and frustrating. **We're changing that.** Our empowering, cloud-based solutions simplify the way you communicate and collaborate.

Fax with
Confidence
